

Dear Pro-life Advocates:

Since March, Maria Vitale, local members of our Media Response Team, and I have sent 56 letters to newspapers here in southwestern PA. 14 of them have been published.

As someone who recently was pro-abortion, I can tell you that there are people with open hearts who read the letters in YOUR newspapers, and consider what they read closely.

We must have a voice in this important public forum.

I NEED YOUR HELP!

I desperately need e-mail addresses for pro-life folks who would be interested in sending a letter to the editor when it is needed, particularly from Beaver and Butler Counties.

They can sign the letter that I send to them if they want, change it and sign it, or write their own response and e-mail it to the paper.

Would you be willing to discuss this at your next meeting, and e-mail your contact list to me so that I can ask if they would be interested in joining the PPLF Media Response Team? If so...be careful, and only send me e-mail addresses for people whom you KNOW are pro-life. We do not want the pro-abortion folks to see what we are doing.

In Christ,

Bryce
